

The Refuge: 683 Auahi Street, Honolulu, HI 96813

October 15th, 2012

To Whom It May Concern,

As an organization that is committed to the revitalization of Hawaii's communities, we, at *808 Urban*, hereby state our full support in the remake of Kamali'i Park by implementing the Honolulu Food Forest pilot project, proposed by the Asia-Pacific Center for Regenerative Design (APCRD). We have begun dialogue together regarding 808 Urban's potential artistic involvement, and stand by APCRD in solidarity with their vision and expertise. Moreover, we acknowledge that this pilot project is in complete alignment with our own mission that strives for innovative solutions for positive social change and community revitalization throughout Hawaii.

Sincerely,

Nikila Badua
